LUBRICATED ALUMINIUM ENTRY

PCB 高端钻孔材料制造商 PCB HI-TECH Drill Materials Manufacturer

产品用途：

- 主要用于BGA与高精度的钻孔

产品特性：

- 高效的散热功能，可降低钻头温度,提升钻孔孔壁质量
- 提高钻孔精准度
- 减少钻头磨损，有利于降低断针率提高钻头使用寿命
- 可适量增加钻孔叠板层数，提高生产效率，降低生产成本

Application:

- Suitable for BGA and high accuracy drilling

Special Features:

- Effective heating transfer, lower temperature of drill bit, increase quality of hole' s wall;
- Increase drilling accuracy;
- Reduce the abrasion and broken of drill bit, good to increase using life of drill bit;
- Increasing production efficiency, cutting own manufacturing cost and lacking more layers PCB board.

技术参数(Technical Data) :

型号 Type	厚度 Thickness (mm)	厚度公差 Thickness Tolerance (mm)	规格 Size (inch)	尺寸公差 Size Tolerance (mm)	翘曲度 Warpage
DXE-07-30S	0.10	± 10 %	37" x 49" 41" x 49" 43" x 49"	±3	± 10 %
DXE-10-50S	0.15				
DXE-14-40S	0.18				
DXE-15-30S	0.18				

备注：其他尺寸及厚度可定制。

Remarks : Other size or thickness can be ordered.
